

WORKSHOP SERVICES

In order to give you a transparent overview of pricing for all activities carried out in the our workshop, we have listed approximate costs below. All prices serve only as a guideline and can vary depending on the age, condition and type of bike. We will happily give you an approximate quote for any jobs not listed below. All parts are charged separately. If any items crop up during servicing we will give you a call before doing work.

NB: There will be an additional labour charge for fitting new parts and

FULL SERVICE from €75

The full service offers you a thorough overhaul, with the aim of restoring your bike to how it worked when it was brand new. It includes all of the following:

- Bike stripped down to the frame, then cleaned and checked for alignment and damage. All threads cleaned and checked.
- Hubs disassembled, cleaned, inspected, then rebuilt with fresh grease, refitted & checked for movement
- Bottom Bracket removed, cleaned, inspected, then rebuilt with fresh grease, refitted & checked for movement
- Headset removed, cleaned, inspected, then rebuilt with fresh grease, refitted & checked for movement
- All other fittings removed, checked for wear, cleaned and re-lubricated replacing all cables and housings
- Brake blocks / disc pads checked and replaced if required
- Replacement of any other worn parts if required
- Safety check (all fittings / mudguards / racks etc. are securely fastened)

STANDARD GENERAL SERVICE

From €25

Includes all of the following:

- Frame & forks wiped down and checked for alignment . Headset checked for free movement and adjusted if required. Bottom Bracket checked for free movement and adjusted if required. Allen bolts checked and tightened to correct torque . External adjustment of all bearings. Degreasing and Lubrication of chain, mechs & cables . Adjustment of brakes and gears. Wheel hubs and rims checked for damage and wear . Pump and inspect tyres for wear and tear. Safety check (all fittings / mudguards / racks etc. are securely fixed).

WHEEL BUILDING

We can hand-build any wheel you like, exactly conforming to your requirements (please ask for a quote).

- Standard wheel build from €45 per wheel

This is based on standard 32 spoke wheel built with stainless steel spokes and brass nipples along with purchase of hubs and rims from us. Other types of spokes are also available, just ask for a quote.
